## THEME DEVELOPMENT

We recommend WordPress as your content management system (CMS) so you can update the content yourself. WordPress is the most popular open-source CMS in the world and has thousands of developers constantly improving it and contributing plugins to extend its functionality.

## **At Shams IT**

we're all about the experience. We design simple, compelling, and functional websites that make it easy for users to quickly find exactly what they're looking for when they arrive at your site and then convert them into paying customers. It's about creating a online experience that transforms users into followers, customers into ambassadors.

It's really important to us that everything is transparent and understood from the beginning so that we lay a solid foundation for a great working relationship.
